

Have you seen our [new video](#)? It's airing all around the 105th district and we are so excited to be sharing Brittney's story with more and more people.

We are only 29 days away from Election Day. We all know how high the stakes are. The outcome on November 3 will determine the future of healthcare, employment, education, civil rights, and so much more at the national, state, and local levels.

Pennsylvania is uniquely positioned to have a huge impact on the national race - whichever presidential candidate wins the state is likely to win the election overall.

We've spoken with voters who are fed up with the Republican party and are choosing to vote blue for the first time ever - because they spoke with Brittney and realized not only that she's a capable leader, but someone who will actually stand up for what is right and protect the lives and well-being of Pennsylvanians.

We're counting on PA to vote blue up and down the ballot - so Joe Biden and Brittney Rodas can get to work repairing America and Pennsylvania, by leading with decency and smart progressive policy.

A better future is possible - we need your support to make it happen.

Help us make sure everyone knows how crucial this race is and how much we need Brittney in the State House. Can you contribute just \$5 so our ad can keep running?
